Completed milestone based tasks  
on Java Full Stack

### PROGRAMMER ANALYST TRAINEE

Cognizant Technology Solutions JUN 2023 - PRESENT

---

## PERSONAL PROJECTS

### 1. School Management System

This system is developed to store and access the data of different schools, classes, teachers, and students. It is designed to implement the range of processes that can be performed on persistent storage applications: Create, Read, Update, and Delete.

- Technologies used: Spring Boot for backend, MySQL for database and ReactJS for frontend.

### 2. Personal Portfolio

Created a responsive portfolio highlighting my educational qualifications and skills. This was designed to showcase my web designing capability.

- Technologies used: HTML, CSS, JS
- Portfolio: <https://nithya-jayashri-p.github.io/Responsive-Portfolio/>

---

## EDUCATION

### B.Tech - Information Technology

Sethu Institute of Technology, Virudhunagar

---
